## OUR HISTORY

PITUCA, a Buenos Aires, Argentina-based Company, is a producer of high-end leathers and furs, founded by Architects Eduardo Moron and Ines Saad in 2010. Their Architecture Firm, started in 1990, is well-known for their work in residential homes, retail spaces and product design and PITUCA aims to offer new and original luxury home products.

Paula Saad, who holds a Bachelor's Degree in Business Administration, joined the team PITUCA to fulfill the demand of international markets and bring PITUCA to the world.

With a focus on high-quality and one-of-a-kind products that exemplify Argentine culture, leather and fur were chosen because they are natural products made ethically and sustainably.

Each product is hand-finished by skilled artisans. All of our leathers and furs are produced responsibly in Argentina and they undoubtedly reflect our identity.

All our leathers + furs are selected  
and handmade by skilled  
craftsmen in Argentina

## OUR STYLE

PITUCA team works with elegance, good taste and breathtaking designs.  
The end result is one-of-a-kind masterpiece worth designing a room around.

A photograph of a bedroom interior. A bed with a light-colored woven headboard is covered with a white sheet and several pillows. The pillows include two large grey and white plaid ones, a smaller white one, and a textured beige one. In the foreground, a wooden tray holds a white ceramic tea set, including a teapot, a sugar bowl, and two cups on saucers. A small book with a gold cover is visible on a surface to the right. The word "SOFT" is written in a white box in the center of the image.

SOFT

LUXURY

We offer a level of product quality and selection not seen anywhere else.

PITUCA's portfolio spans luxury restaurants, hotels, private homes, offices, and more.

Whether on a bed, sofa, or elsewhere, our throws provide a soft, relaxing ambiance that can define a space.

# DISTINGUISHED

Sheepskin seating puff, a real highlight in any room,  
creates a truly unique looking piece of furniture.

SOPHISTICATED

# LEATHER + FUR

The softness and beauty of our natural sheepskin pillows, rugs, and throws in combination with leather bring exquisite warmth and style to a room.

For the rooms, a touch of fur, sheep or natural goat texture, can really bring it to life.

Sheepskin is thermostatic, keeps body temperature cooler in summer and warm in winter

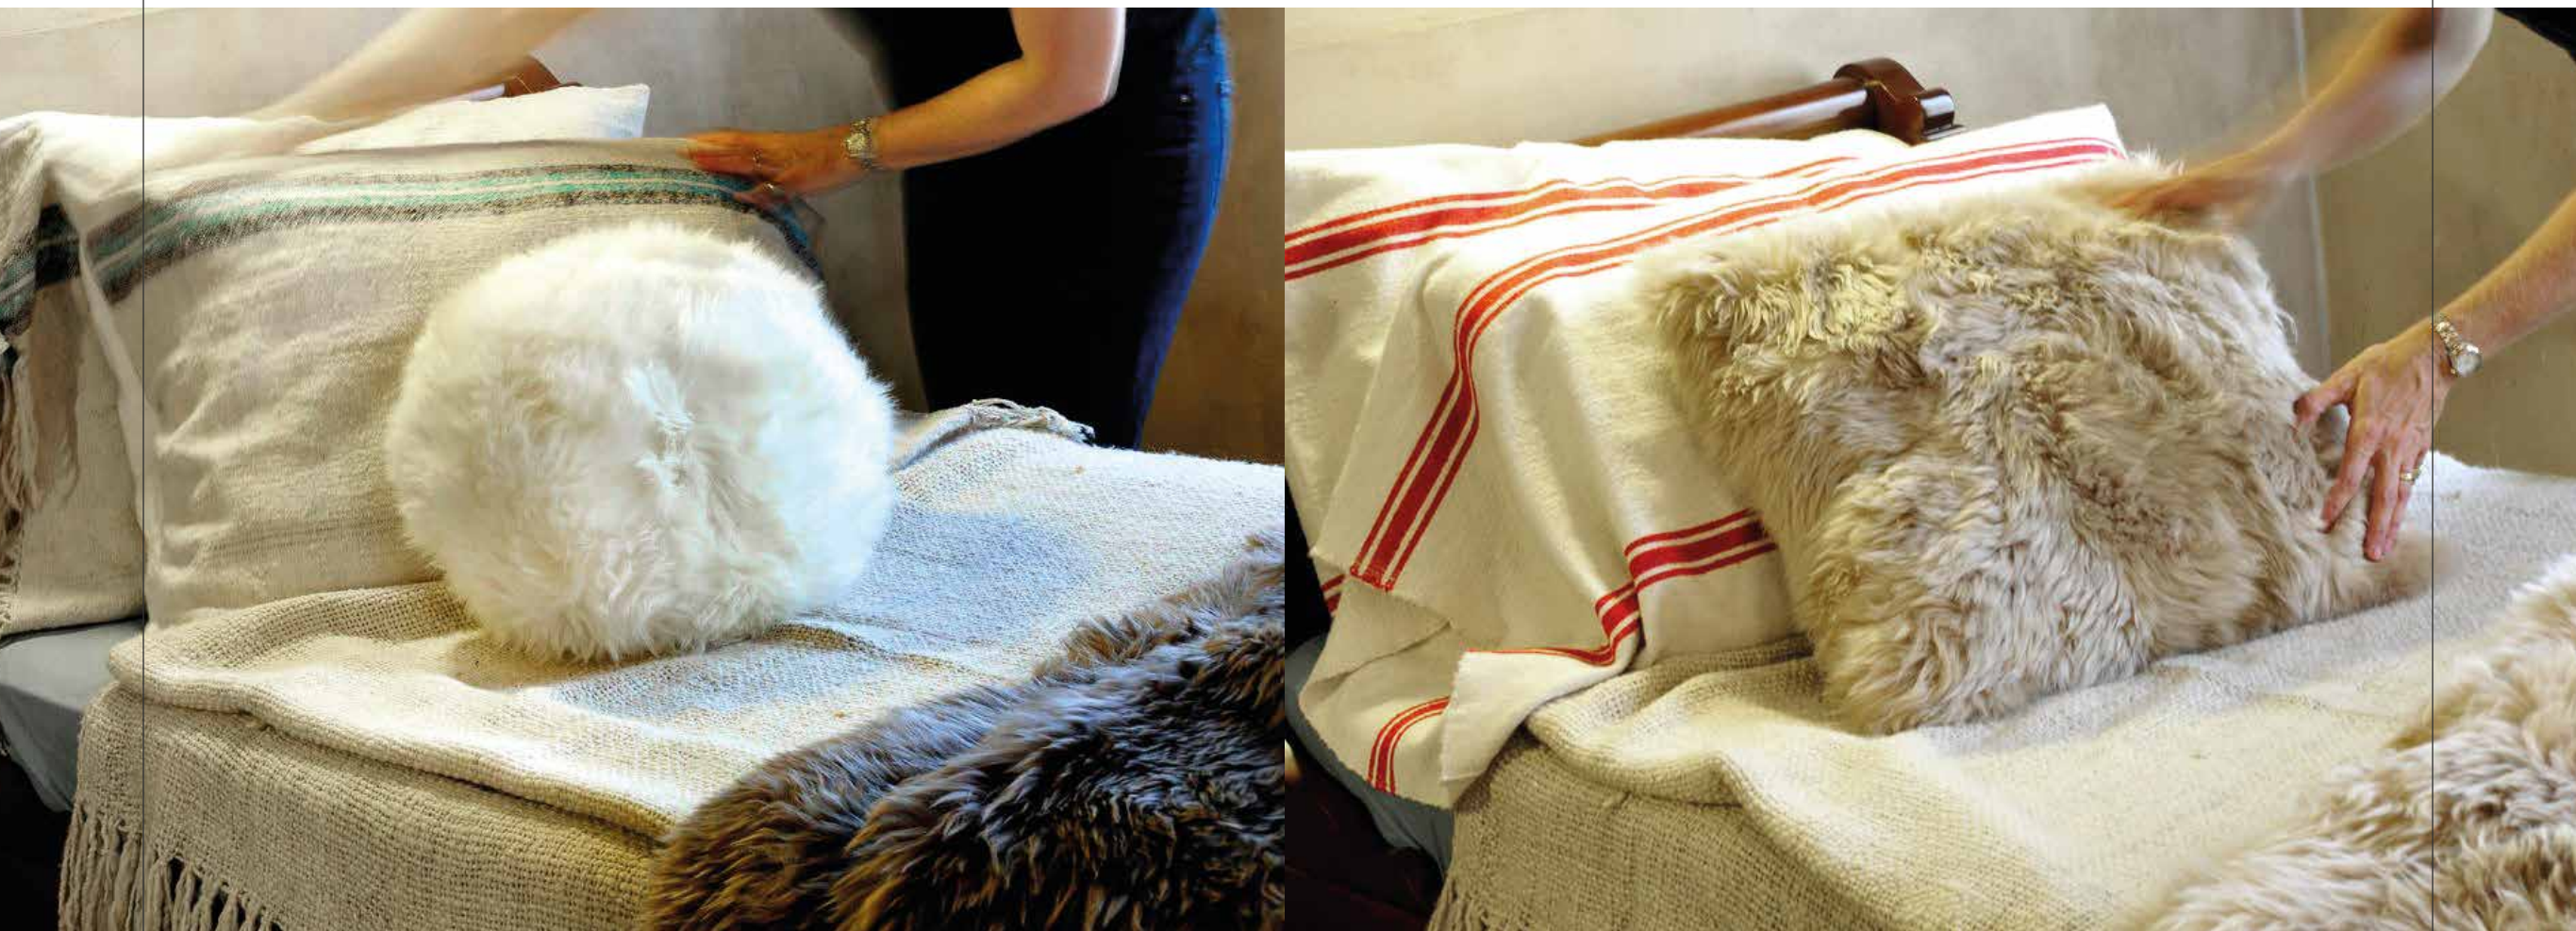

A woman with dark hair, wearing a black top and blue pants, is sitting on a large, shaggy brown fur rug. She is barefoot and looking down at her hands. The rug is placed on a light-colored tiled floor. In the background, there is a dark wood bed frame with a headboard and a footboard. To the right, there is a wooden desk with a lamp and a framed portrait of a man with a large afro. The word "COMFORTABLE" is written in white capital letters inside a thin white rectangular border, centered over the rug.

COMFORTABLE

## GET COZY

Each PITUCA sheepskin pillow is selected and handmade by skilled craftsmen in Argentina.

## TO KNOW

Our natural sheepskin, goatskin, fox fur and otterskin come from the mountains of **Patagonia Argentina**. It is well-known that Argentina has the finest cowhides in the world, they are produced with care and the tanning process we use leave the hides silky, soft, and beautiful. They are enjoyed and loved for generations.

Real fur is 100-percent organic and fully biodegradable, while faux fur (fake fur) is made from petrochemicals, which do not break down easily and will remain in landfills for centuries.

Fur trade maintains centuries-old craft traditions. Each fur garment is individually cut and sewed by skilled artisans in Argentina who are proud of the skills and traditions they maintain.

Each sheepskin, goatskin and cowhide, are made in a fair-trade environment, all 100-percent ethically sourced (i.e. a by-product of the meat industry) and no animals are harmed specifically for use of the skins. We make use of a beautiful natural resource that, if properly cared for, will last for a lifetime.

To market the products made in foxfur and otterskin, **PITUCA** is registered in **NATIONAL WILDLIFE**, these culling programs help keep the fox and otter population within reasonable numbers.

## TO KNOW

Sheep wool is also rich in lanolin, is naturally impermeable and it is 100-percent protein, creating an environment that is not conducive to the development of bacteria. Wool is a natural product. Every piece is one-of-a-kind, no two are the same. White color contains a slight yellowish hue, and it is not pure white. This color appears naturally in all white sheepskins.

Most of our products can be custom made to fit your size and color requirements. **PITUCA** is recognized for its quality custom work. If you need a custom-sized rug, throw or pillow, contact us to explore the possibilities.

Avoid direct sunlight to avoid UV damage / Shake often. Promptly attend to spills and stains. Never rub, brush or massage the carpet when it is damp or wet. Professionally cleaning only.

International orders come unfilled, because shipping costs would be very expensive.

International shipments may be subject to import charges implemented by your local customs office, which are the responsibility of the purchaser.

**Orders are shipped within 6-8 weeks from payment**
